LASER MAIL 7000

4 & 5 COLOR DIGITAL PRINTING

Breathtaking HD color, stunning detail and unmatched speed; The Laser Mail 7000 prints variable data and images on envelopes, stationery, banners, post cards, glossy stocks, labels, standard paper and difficult stocks to ensure direct response fulfillment.

The straight thru paper path prints up to 70 full color personalized #10 envelopes per minute in “one pass.”

This digital envelope press offers flexibility for print jobs with media thickness up to 450 GSM. The load and remove on-the-fly feeder/stacker can load and stack up to 1,000 pieces of material.

KEY FEATURES

- High resolution color - LED imaging technology delivering an optical resolution up to 1200 x 1200 dpi
- Available in 4 or 5 color - opaque white or clear, adding depth, impact and style to prints
- Side registration of envelopes provides accurate and repeatable printing from the first to the last
- Quick turn-around of print jobs with Load and Remove On-The-Fly Feeder and Stacker
- North American Electrical Certification
