

DPT 2432 AN INDUSTRY FIRST

The DPT 2432 Desktop Envelope Printer is the perfect printing solution for legal offices, banks, associations, clubs, real estate offices and others.

Produce high quality printed materials such as postcards, brochures, business cards and envelopes on a small budget and avoid outsourcing costs.

DPT 2432 is set apart from other envelope desktop printers due to PSI's "load-on-the-fly" envelope feeder. This feature allows you to add and remove documents and envelopes while the system is in operation.

KEY FEATURES

- Prints in "one pass" up to 20 full color personalized envelopes per minute
- Prints variable data & images on mailing return addresses labels, including personalized message and images all in one pass
- Envelopes can be fed long edge first for professional, wrinkle free finishing
- High definition color optimizes print jobs for the brightest colors, sharpest text and clearest reproduction of images
